## TECHNICAL INFORMATION SHEET: BioRem Parts Cleaner - Liquid

---

### General Description

- Highly effective Microbe-Powered formula (liquid) to be used for parts cleaning applications.
- Designed for use with manual, immersion, dip tank and agitation cleaning applications.
- Remediates oil and grease into carbon dioxide and water.
- Contains inhibitors for superior rust and corrosion prevention.
- Excellent rinseability, fast-drying-leaving no residue.
- Non-toxic, non-caustic, non-flammable and non-hazardous.

### Technology Profile

The unique characteristic of our microbial blend is its ability to adapt to the changing distribution of hydrocarbon by-products and produce more enzymes needed to digest a particular type of chemical. The food grade botanical extracts increase the attach ration for the microbes and enzymes. This blend is one of only a few that can withstand phenol and phenolic toxins.

### Technical Information

Dilution	Ready to Use	
Physical Properties	Appearance	Liquid
	Color	Amber
	Fragrance	None
	pH	7
	Shelf Life	1 Year
Packaging	19L Carboy, 3.6L Gallon	

No. of Different Microbial Strains	12
Microbial Count	50 Billion/gram
Microbial Characteristic	All GRAS Listed
No. of Enzyme Species	7
Enzyme Activity	6,000 µ/mg.
pH Activity Range	5-11 pH
Bioluminescence Test	Positive for Living Cells
Salmonella	Negative
Listeria	Negative
Phosphorus	Non-Detect

### Directions

Product is ready to use. No dilution needed. Use an auto parts washer for efficient cleaning. For best results heat or warm the solution to 125 F°. Agitate for heavy, stubborn hydrocarbon build-up. Replace when the solution becomes cloudy (approx. 15-30 days).
