

TECHNICAL INFORMATION SHEET: Pure Earth Tile & Grout Care

General Description

- Microbe-powered grout cleaner
- Removes light grease or surface oil, hard water stains, mildew, lime deposits and stubborn dirt.
- Restores badly soiled grout to original color.
- Safe to use on grout, concrete and ceramic tile.
- Does not contain hazardous acids or chlorine bleach.
- Will not pit or dissolve grout.
- Ideal for general maintenance of commercial and industrial floors.

Technology Profile

BioTec Technology is the science of using microbes and enzymes to dispose of FOG and food waste safely, economically and rapidly. BioTec Technology consists of microbes and enzymes producing complex chemical reactions that metabolize organic waste into carbon dioxide and water.

Enzymes break apart large complex compounds like FOG into smaller molecules. The microbes then can readily digest these smaller molecules releasing them as carbon dioxide and water. The microbes and enzymes are completely safe because they are non-pathogenic, naturally-occurring and salmonella-free. These microbes are chosen for their ability to degrade “FOG” as well as starches and proteins.

Technical Information

Dilution	Ready to Use	
Physical Properties	Appearance	Liquid
	Color	Clear
	Fragrance	None
	pH	6
	Shelf Life	1 Year
Packaging	3.6L Gallon, Quart	

Directions

General Use: Spray directly on the tiles or floor area. Do not dilute product. Directly follow with a push brush or floor scrubber to agitate the dirt. Use a clean mop to pick up the soil liquid and wipe dry.
